

## UNISPEED USFL/01

This device allows pre-assembling DIN2353 rings through manual adjustment of the pressure, which is to be set before each operation. A 37° flaring of 6 to 42 mm diameter and 4 mm maximum thickness rigid stainless steel (AISI 316 TI) and carbon steel (ST 37.4) tubes may be obtained due to the addition of a special block made of steel. Also available in the 12V version, this is the perfect device for outdoor assistance.
